Abstract

Cosmetic composition containing, coloring matter containing glass particles coated with at least one metallic layer. Independent claims are also included for 1) the process of make-up, comprising application of at least one layer of composition as claimed; 2) make-up support comprising make-up applied by process as claimed, e.g. in form of false nails, eye-lashes or hair; and 3) the use of glass particles, coated with at least one metallic layer, in cosmetic make-up compositions, to produce brilliant and/or wear resistance make-up, i.e. in the form of nail varnish, eye-shadow, blush, foundation, mascara, lipstick, or eye-liner.
